

For over 90 years, Amerock has built its legacy on providing a high level of service to our partners and customers. They play a vital role in providing essential products and services for home building and remodeling, and we are committed to their continued success during this unprecedented time.

First and foremost, we want to assure you that Amerock is taking the appropriate steps to safeguard our staff and their families. We are wholly committed to ensuring that our business operations continue to run smoothly, and our decisions are being guided by the counsel of outside health experts, including the CDC and local government agencies.

We are taking steps to ensure as little disruption as possible while continuing to do business with our partners and customers. As an organization, we are fully prepared to operate remotely, and our distribution and supply chain operations are staffed and working efficiently while taking appropriate safety precautions. Additionally, our Distribution Center has undertaken the recommended precautions to help ensure associates' health and well-being, and at this time, remains open for business as a designated Essential Service.

At this time, we can be reached during regular business hours, Monday through Friday from 8:00am to 6:00pm EST.
