Characteristics of Wood

Wood Types

No matter which wood type you choose for your new kitchen or bath cabinetry, please keep in mind that no two pieces of wood are exactly the same. Stains are likely to exaggerate the difference between open and closed grains and other markings in wood. Grain variation and color change should be expected. As hardwood ages, it will darken when exposed to different types of light. Color differences or changes in wood can also be caused by exposure to harsh chemicals, extreme heat, or other contributing external conditions. Additionally, wood species exhibit other defining characteristics, such as mineral deposits/streaks, knots, sap runs, pin holes, and wormholes. These markings make the wood unique and contribute to its enduring beauty.

Maple

- ▶ Strong, resilient wood with a uniform tight grain and smooth, even appearance
- ▶ Mineral streaks are common and will appear darker with stain
- ▶ Subtle wood grain markings include fine lines and wavy or curly graining
- ▶ Small, black "bird's eye" dots

Birch

- ▶ Even-textured, fine-grained wood with a curly or wavy pattern
- ▶ Strong with a high resistance to abrasion
- ▶ Smooth, dense surface texture
- ▶ Tight wood grain appearance

Characteristics of SmartShield

SmartShield

- ▶ Durable, laminate-based material that provides superior abrasion resistance
- ▶ Meets/exceeds all KCMA performance standards
- ▶ Wrapped door rails and panels
- ▶ Clear, pre-impregnated top coat for superior durability (glazed styles have an oven-cured top coat)
- ▶ Lineals and core panel material are made of MDF to ensure a consistent and stable product
- ▶ SmartShield doors can be distinguished from painted cabinets by their picture-perfect distribution of satin, smooth color

These doors offer the durability of a laminate and the beauty of paint, while bringing peace of mind to those who care about creating a better environment - both inside and outside of their homes. Molded decorative door profile with a durable, yet attractive finish offers care-free maintenance. In addition to a uniform appearance, cabinets will have:

- ▶ A sleek surface
- ▶ A design that replicates a painted finish with optimum durability
- ▶ A fresh, contemporary feel that is also at home in a more traditional setting

Characteristics of Paint

Paint will develop hairline cracks in the finish, most notable around the joints. This is a result of natural expansion and contraction of the genuine hardwoods used in the manufacturing of this product. Hairline cracks are not considered a defect in the cabinetry or finish and will not be considered a reason for product replacement.

Select components on painted door styles and accessories may be constructed of hardwood or Medium Density Fiberboard (MDF) to provide a smoother finish and be more resistant to warping, expansion, and contraction.

Humidification Effects

Cabinet components are typically manufactured at a target range of 40%–50% relative humidity. This works well because even unhumidified homes stay between 20% and 70% in normal years with typical cooking and washing activities.

In extremely cold, dry winters some doors can be exposed to conditions where relative humidity is below 20% for weeks at a time, causing shrinkage to occur. Conversely, where in-home relative humidity exceeds 70% for extended periods of time, expansion could occur. In certain geographic locations of the country, it is natural for the humidity to reach and remain at 80% for several weeks during the new construction period. Exposure to sustained conditions such as these could cause opening of the joints, and will not be considered as a reason for product replacement.

Signature recommends product be stored and installed in an atmosphere where the humidity level and temperature are controlled.

Humidification Effects on a Door with a Miter Joint

High Humidity

When wood swells, miter joints open as shown above.

Low Humidity

When wood shrinks, miter joints open as shown above.

Steps Consumers Can Take To Protect Real Wood Furnishings

- **Keep an eye on the humidity inside the home.** Reasonably accurate digital thermometers-hygrometer units are available to measure humidity.
- **Maintain the humidity at or above 20% when the temperature is below 20 degrees and over 35% when the temperature is above 20 degrees.** Some ways this may be accomplished are installing a whole-house humidifier on the furnace, running a portable humidifier in key rooms, or placing pans of water near the heat registers.
- **Don't over do it.** Significant condensation on windows is a sign the humidity levels are too high for outside temperature conditions.
- **Recognize that finished wood responds to humidity over a period of several days to several weeks.** It takes time before the wood returns to normal after any correction to the environment.

Finish Descriptions and Finishing Process

Finish Descriptions		
	FINISH NAME	DESCRIPTION
Stain / Glaze *	Barley	Medium, warm brown stain
	Caraway Glaze	Warm medium brown stain highlighted by a dark brown glaze
	Cinnamon Glaze	Red toned base stain, highlighted by a dark brown glaze
	Garnet	Traditional, cinnamon red tones
	Ginger	Dark brown stain with red undertones
	Molasses	Rich, deep brown stain
	Natural	Natural finish is achieved with a clear coat which allows the pure beauty of natural wood grain to show.
	Shadow	Dark, gray stain with brown undertones
	Suede New	Medium brown stain with touch of gray
	Toffee	Mid-tone stain with warm, copper tones
	Truffle	Medium to dark brown stain
SmartShield	Arctic	A pure white color
	Fossil	Cool, light gray color
	Lunar	Cool, medium gray color
	Ivory	Warm, off-white finish enhanced by the appearance of a medium brown glaze
Paint **	Dove Paint	Warm, off-white color
	Pure White Paint	A pure white color

*Signature's Hand-Contoured Glazing is an additional step in the finishing process that highlights door detail and enhances the richness of wood color and tone. Because glazing is achieved by hand, variations will occur throughout any door, and from one door to the next. The outcome will range from a consistent, even appearance to more varied coverage. The variation is a desirable feature and brings out the uniqueness of glazing.

**On wood products, normal movement is typical due to change in climatic conditions. This will cause hairline cracks at stile, rail and panel joints. This hairline cracking is a normal characteristic of painted finishes and will not be considered a reason for product replacement.

Finishing Process

Signature offers a variety of cabinet construction and finish options in order to allow for maximum design flexibility. Below are details about wood characteristics to assist you in deciding on a wood type and finish.

The Signature finishing process starts with top quality lumber that is sanded down to reach difficult areas before the doors are assembled. After assembly, each door is inspected before a toner is applied with a spray. After applying toner to each door, drawer front, and face frame, a layer of stain is added using a spray finish which is then hand-rubbed into the wood for maximum penetration and long-lasting beauty. A catalyzed varnish is then applied during the finishing process to fill the grain. Finally, a UV topcoat is applied onto the door, providing a protective layer and beautiful, lasting finish. A final inspection is given at the end of the process to ensure each door is ready for cabinet assembly.

The finish you select for your door style is just as important as the wood type. Each piece of wood will react differently to the finish material used, resulting in a slight variation in shade within and between cabinets. When natural, light, or tinted finishes are applied, the natural grain characteristics are apparent.

Ordering Information

How to Order Upgrade Features

To order upgrades, simply add the applicable charges to the standard list price. Drawer upgrades are available and priced as follows:

5-pc Drawer Front Upgrade (per Drawer)	
Base or Vanity	\$70

5-piece Drawer Front Upgrades for Cabinets with Drawers

- ▶ Available on most cabinets with drawers.
- ▶ \$67 per Drawer to upgrade to an optional 5-pc Drawer Front
- ▶ See Examples:

Example

5-pc Drawer Front Upgrade			
Customer wants to upgrade a B39RT-2B in Darrow Birch to include a 5-pc Drawer Front option			
SKU	List Price	5-pc Upcharge	Total B39RT-2 with 5-pc
B39RT-2	\$1,269	2 x \$70 = \$140	\$1,269 + \$140 = \$1,409

Cabinet Front-Only (FO) Information and How to Order

- ▶ Cabinet front-ONLYs include the following parts (where applicable): frame, hinged door(s), drawer front(s), and non-matching toeboard.
- ▶ Parts not included: cabinets floor and cabinet accessories (door racks, wastebaskets, pull outs, etc).
- ▶ Front-ONLYs are available in Standard door style numbers and are not trimmable.
- ▶ Front-ONLY list price is 70% of the cabinet list price. Not available to order through 20/20, contact customer service to order.
- ▶ See Example:

Example

Front Only W3030 in Darrow Birch		
SKU	List Price	Total Front Only W3030B
W3030B	\$471	(\$471 x .70 = \$330)

Cabinet Frame Only (FM) Information

- ▶ Not trimmable.
- ▶ Not available to ship FedEx.
- ▶ Contact Customer Service to set up SKU frame only.
- ▶ Orderable via EDI after set up.

Cabinet Frame Only Pricing	List Price
Wall	\$175
Base	\$225
Tall	\$450

FO and FM are not available on the following cabinet types (contact customer service for additional questions):

- ▶ Sink Base Cabinets or Sink Fronts
- ▶ Base-height Vanities that share a frame configuration with a standard Base Cabinet
- ▶ Base Roll Tray Cabinets 15"-24" wide or 39"-48" wide
- ▶ 12" deep Base Cabinets (Use SKU for 24" deep)
- ▶ 15" or 24" deep Wall Cabinets (Use SKU for 12" deep)
- ▶ 12" deep Utility Cabinets (Use SKU for 24" deep)
- ▶ Corner Cabinets with angled frames (SCER, SCR, BRER, BLS, BECF)
- ▶ Cabinet Front-ONLYs (FO) are only available in standard construction, and will not be available with Soft Close Hinges.

Cabinet Specifications

- ▶ Number above wall cabinet represents height of cabinet.
- ▶ 1/2" Top and Bottom Rails on most cabinets.
- ▶ 1/2" Vertical Stiles on most cabinets, except OCSD/OD/TMW Cabinets.
- ▶ Drawer box opening heights are 4 1/2" for small and 9 1/2", 9 3/4", or 10 1/8" for large (deep) drawers.

Partial Overlay Door Styles:

- ▶ 1 1/16" Reveal around doors (1 1/16" of Face Frame shows).
- ▶ Door size for Single Door Cabinets: Frame opening + 7/8"
- ▶ Door size for Butt Door Cabinets: (Frame opening + 3/4")/2
- ▶ 4 1/2" High Drawer opening = 5 1/8" Drawer Front.

Full Overlay Door Styles:

- ▶ 1/4" Reveal around doors (1/4" of Face Frame shows).
- ▶ Door size for Single Door Cabinets: Frame opening + 2 1/2"
- ▶ Door size for Butt Door Cabinets: (Frame opening + 2 3/8")/2
- ▶ 4 1/2" High Drawer opening = 5 3/4" Drawer Front.

84" High Application

90" High Application

Cabinet Specifications

32 1/2" High Vanity Cabinets

35" High Vanity Cabinets

32 1/2" High Base Cabinets (Universal Design Application)

- ▶ 32 1/2" High Cabinets are designed to comply with ADA (Americans with Disabilities Act) requirements of a 34" high overall counter height, including a 1 1/2" counter top.
- ▶ Refer to ADA guidelines for more details on designing in small spaces where extra width for turning radius may be required.

- ▶ Available in the following styles:
 - ▶ Darrow Birch
 - ▶ Elliot SmartShield
 - ▶ Fremont Birch
 - ▶ Melrose Maple
 - ▶ Plymouth Maple
 - ▶ Rockford Maple
 - ▶ Winslow Maple
- ▶ For Vanity Sink Base Cabinets, see page 180.
- ▶ For a Vanity Wall Sink Cabinet, see page 202.

Wall Cabinets | 12" Deep

Design Tips: • Apply an End Panel Skin to create a flush end on the side of a Wall cabinet if installed at the end of a run for ease of Moulding installation • All single-door cabinets are hinged left • Cabinets can be flipped during installation for right hinge applications			SMARTSHIELD				BIRCH

Wall Cabinets / Square Corner | 12" Deep

Design Tips:		SMARTSHIELD				BIRCH						
		ELLSTON	ELLIOT	CARVER	LIVINGSTON EMERY	DARROW		FREMONT		WINSLOW		
• When cabinet is "pulled", it will use proportionally more wall space. For example, a 30" wide Wall cabinet pulled 2" will use 32" of space	• Blind side of Wall Corner cabinets cannot be installed next to a Range Hood or Microwave Shelf door due to door interference											
• Cabinets can be flipped during installation for right hinge applications	• Reference Installation Charts for proper sizing identification, see page 70	SKU	cubes	SS	SS	SS	SS	Stain	Paint	Stain	Glaze	Stain

MOULDINGS & TRIM

Design Tips:

- (PS) identifies SmartShield
- Painted Maple can be used with or substituted for SmartShield
- For Moulding Solutions, see pages 248-249
- Remember to order extra Mouldings when working on mitered corners
- At minimum, leave a 3" reveal at the end of the run to allow Moulding and countertop ample clearance to return back to the wall

Moulding Solutions

To create the design, start with F396 and add MICROWN8/PSMICROWN8 and MROPE8 insert.

To create the design, start with MCTB8, add MBAT8 and another MCTB8 and support with cleat.

To create the design, start with F396 and add MFOLCR8/PSMFOLCR8 and MDENTIL8 insert.

To create the design, start with F396 and add MFOLCR8/PSMFOLCR8 and MROPE8 insert.

To create the design, start with MBS8 and add MCROWN8/PSMCROWN8 and support with cleat.

To create the design, start with MTST8/PSMTST8 and add F396 cut to 1 1/2" and add another MTST8/PSMTST8 and support with cleat.

To create the design, start with F396 and add two MBAT8 and MSHKRCROWN8 and support with cleat. Available in Maple finishes only.

To create the design, start with MTST8/PSMTST8 and add F396 and MICROWN8/PSMICROWN8 and support with cleat.

To create the design, start with MCTB8 and add F396 and MSHKRCROWN8 and support with cleat.

To create the design, start with MTST8/PSMTST8 and add F396 and MFOLCR8/PSMFOLCR8 and MDENTIL8 insert and support with cleat.

To create the design, start with F396 and add MICROWN8/PSMICROWN8 and MTBEAD8/PSMTBEAD8 insert.

To create the design, start with MCTT8 and add another MCTT8 and MDENTIL8 insert and support with cleat.

Design Checklist

Did you remember...

Styles and Pricing

- ▶ Select Door Style and Pricing Level from your 20/20 design program. (If copying and pasting from one order to another, remember to reset styles and pricing.)

End Finishing Options

Consider exposed end options:

- ▶ Apply $\frac{3}{16}$ " veneer skin to hide $\frac{3}{16}$ " reveal. This will allow the ends to age uniformly with the rest of the kitchen and will make it flush.
- ▶ Apply decorative door kit (DBEP, DWEP, DVEP). This kit includes $\frac{3}{16}$ " veneer skin, decorative doors, and screws for field installation.
- ▶ Underside of Wall Cabinets are natural maple laminate, with a few exceptions such as WMD, WOL and WPG (exclusions to apply and noted throughout the book). Use light rail and skin to hide, especially when designing with Peninsula Wall Cabinets.

Wood and Finish Characteristics

Review specific details with the customer:

- ▶ Mineral Streaks, Birdseye Dots, Grain Variations
- ▶ Color Variations/Darkening.
- ▶ Finish Variations (Glazes are "consistently inconsistent"), hairline cracks may develop at frame joints on painted frames.

Clearances

- ▶ Add fillers between end cabinets and walls on full overlay door styles.
- ▶ Allow space between door/window trim and end cabinets for countertop and top moulding overhang.
- ▶ Include refrigerator door hinges in overall refrigerator height when placing cabinets above it.
- ▶ For minimum pull requirements on blind corner cabinets, see charts on pages 70, 122, and 200.
- ▶ Allow sufficient clearance (3") on each side of accessory cabinets (such as roll-out trays, swing-out units, etc).
- ▶ Doors on these cabinets must open fully for accessories to be functional.
- ▶ Ensure the height between the cooktop and range hood is 24" to meet NKBA guidelines.

Advise customer carefully on upper cabinet/microwave advantages/disadvantages as follows:

- ▶ Minimum of 18" from cooktop to upper cabinet/above the range microwave which allows for easy access to either, but less room over back burner.
- ▶ Minimum of 21" from cooktop to upper cabinet/microwave which allows for access to large pots on back burner of cooktop, but longer reach to microwave.

Fillers

- ▶ Place fillers toward end of run where least conspicuous if needed.
- ▶ Attach overlay fillers on top of base, wall, or tall fillers when using full overlay door styles to maintain a consistent reveal. Don't forget to include blind corner fillers.

Matching Interior Cabinets/Glass Options

- ▶ Use light rail and skin to hide color variation between bottom of WOL Cabinets next to any other cabinets.
- ▶ Verify mullion door grid matches customer expectations. (Advise customer of shaker grid pattern.)

Mouldings

- ▶ All toekicks must be skinned with TOEKICK, TOEKICK8, or TOEKICKPLY8.
- ▶ Verify the correct amount of moulding has been ordered.
- ▶ Order toekick caps.
- ▶ Order extra scribe.

Islands and Peninsulas

- ▶ Consider standard height bars are 35" tall and require 19" knee space. Raised bars are 42" tall.
- ▶ Consider Base Peninsula Cabinets (PB) are $23\frac{3}{4}$ " deep and require 12" of knee space.
- ▶ Use outside corner moulding if a skin is exposed on the back of the island.

Appliances

- ▶ Do not place dishwashers next to diagonal front cabinet (interference) or next to a range (no countertop support).
- ▶ Verify refrigerator door has enough clearance to open beyond 90 degrees so refrigerator drawers can be utilized. Refer to appliance manufacturer's specifications.
- ▶ Thermofoil will not withstand sustained temperatures in excess of 170°F. A 3" filler or heat shield is required between any thermofoil surface and any heat source to be in compliance with cabinet warranty.

Special Considerations

- ▶ Consider V-Groove skins and/or decorative doors on exposed cabinet sides in glazed kitchen.

Miscellaneous

- ▶ Order touch-up kit for future repairs.

Tips to the Installer

#10 x $2\frac{1}{2}$ " installation screws are furnished and packaged inside all cabinets for attachment to wall. Proper wall stud or ceiling joist installation is essential for Wall and Peninsula Cabinets to support weight. Whenever possible, cabinets should be attached to each other for additional strength. Excessive weight should not be put on cabinets hung by themselves. Shimming may be required to ensure proper alignment. Wallboard alone is not strong enough to support the cabinets.

Wolf Signature's Warranty does not cover damage caused by improper installation. Please be sure to install cabinets properly and review all installation instructions. If you have questions, please contact your representative or customer service.

Wood Dust Warning

When cutting, sanding, sawing, or shaping cabinets or wood products, you are likely to generate wood dust. For your own safety, Wolf Signature recommends that you wear a protective mask to prevent breathing wood dust. We also recommend eye protection to avoid injury by flying wood chips or sawdust during cabinet installation.

Warped Door Policy/Cabinet Care

Wolf Signature cabinetry is constructed to strict specifications, including the moisture content present in wood. When the moisture content is maintained at a constant level, Wolf Signature is able to minimize the amount of expansion and contraction associated with natural wood. When a great amount of expansion and contraction occur, the result can be a warped door. By strictly controlling the amount of humidity present during manufacturing, Wolf Signature is helping to ensure you receive a quality product.

Because wood is a natural product, each piece of wood exhibits its own unique color and grain variations. These differences give wood its genuine beauty. The wood's natural properties also determine how each individual piece will react to changing weather conditions. Therefore, eliminating warped doors is virtually impossible.

If you feel that you have a warped door, Wolf Signature requires that you perform initial testing to determine the extent of the problem.

1. Remove the door from the cabinet and remove all decorative surface knobs or pulls and hinges.
2. Place the door on a completely flat surface, as determined by using a level, and alternately press on the opposite corners to observe if the door "rocks" or pulls away from the flat surface.
3. If you observe a gap between the door and flat surface, measure the distance to determine the amount of warpage.
 - A door must be warped at least 1/4" before it can be considered for replacement. When ordering a replacement by using Wolf Signature Part Replacement Order Form, be sure to fill in the reason for proper replacement code as "06".
 - If the door is warped less than 1/4", we recommend you allow a complete heating and cooling cycle (summer to winter) to allow the door to reach moisture equilibrium. Adding magnetic catches or roller catches will often correct minor problems.
4. If the door does not pull away from the flat surface, it is not warped. Most likely, there is a problem with the cabinet installation. When cabinets are not properly installed in a level or plumb position, they will become racked and will cause the door to appear warped. To check for a racked cabinet, place a level on one end rail. The bubble in the level will appear centered if the cabinet was properly installed in a level position. Now, place the level on the other end rail. Again, if the bubble appears centered the cabinet is properly installed in a level position. Any variations in the location of the bubble will indicate the cabinet was not properly installed. (A plumb bob will reveal the same information.)

Another proper installation check is to place the level in the top, and then bottom of the installed cabinet's face frame. Identify the bubble's position in both, top and bottom, locations of the face frame. The bubble's position will indicate if the cabinet was not properly installed.

Cabinet Care Suggestions

Cleaning Tip: Never use a dishcloth to clean or dry cabinet exteriors or interiors. Remnants of detergent or grease may be contained within the dishcloth.

Interiors: Wolf Signature cabinet interiors are surfaced with a quality Maple Laminate, a quality laminate material that resists scuffs, marks, and most common household spills.

1. To clean the interior surface, simply wipe with a damp cloth or sponge, then dry.
2. To remove food residue or grease, use the suds from any common dishwashing liquid and a damp cloth to wipe clean. Dry thoroughly.

CAUTION: If a spill occurs, it is important to clean up the spill and dry the surface immediately. A spill left unattended will soak through the natural Maple laminate and cause damage.

Exteriors — Wood Finish: Wolf Signature wood exteriors are manufactured with a quality finish that protects the wood and brings out its full beauty. To maintain your cabinets' appearance, Wolf Signature recommends cleaning them at least once a month.

1. Simply wipe the surface of your cabinets with a clean damp cloth, then dry.
2. To remove general soil or grease, use the suds from any common dishwashing liquid and a damp cloth to wipe clean. Dry thoroughly.
3. Excess moisture can damage any cabinet finish; areas near the sink, range, dishwasher, oven and baseboards are the most susceptible. Keep these surfaces dry.
4. Because Wolf Signature uses a quality varnish on the finish, waxing your cabinets is not necessary. If waxing is preferred, use any furniture polish or lemon oil recommended for fine furniture. Be sure to completely wipe off the excess wax to avoid build-up.

CAUTION: Avoid using cleaners that contain bleach, ammonia or state on the label they have any type of abrasives. These cleaners can cause damage to your cabinet finish.

Exteriors — SmartShield: Some Wolf Signature styles use doors and drawer fronts with a laminate or thermofoil finish. To clean this type of finish, Wolf Signature recommends the same procedure described for wood exteriors.

Policies / Information

Discontinued Product Policy

- A minimum of 60 days notice will be given to customers announcing the discontinuation of a product.
- Product will no longer be available to order after the discontinuation date. Only warranty orders will be considered. With warranty orders, Wolf Signature will have the option to repair or replace a customer's defective product with the same discontinued product they originally purchased or with a current product that is similar in appearance.

Freight Policy

- If an entire order is no charge, Wolf Signature will pay for standard ground freight.
- If an order contains a chargeable item, the cost of freight will be charged to the customer's invoice.
- If a customer requests an upgrade to a parcel shipment method, the customer will be charged the entire freight charge.

Returned Goods Policy

- All cabinets are manufactured according to the individual order and cannot be changed, cancelled, or returned once order has been scheduled.

Transportation Claims

- Please inspect merchandise at time of signing freight bill, and have the transportation company note any damage incurred in transit.

Disclosure

- Prices and specifications are subject to change without notice.

WOLF SIGNATURE | LIMITED LIFETIME AND 5-YEAR WARRANTY

FIVE-YEAR LIMITED WARRANTY ON CABINETS

Wolf Signature cabinetry products are manufactured for Wolf Home Products by MasterBrand Cabinets, Inc. (Manufacturer). The Manufacturer warrants to original consumer purchasers for a period of five years from the original date of purchase that all other components of Wolf Signature cabinetry shall be free from defects in material and workmanship under normal use.

LIFETIME LIMITED WARRANTY ON DRAWER GUIDES AND HINGES

The Manufacturer warrants to original consumer purchasers for as long as they own their homes that the drawer box, drawer guides and hinges used in the manufacture of Wolf Signature cabinetry products shall be free from defects in material and workmanship under normal use.

These warranties are applicable only to products used in residential applications within the United States and are not transferable to subsequent owners.

Should defects in material or workmanship exist during the applicable warranty period in any Wolf Signature product, the Manufacturer will elect at its discretion to either repair or replace the defective material or component free of charge. This warranty covers only parts and materials of the products supplied by the Manufacturer. Not covered under this warranty are countertops, appliances, plumbing fixtures, etc. or the costs, including labor, to remove and reinstall materials and related components such as fittings, appliances, etc.

This warranty shall become void if the cabinets are in any way modified, improperly installed or damaged prior to or during the installation. This also disclaims products utilized in any application other than the standard. Furthermore, this warranty will not apply to cabinets damaged by misuse, neglect, abuse, acts of God, exposure to moisture, exposure to extreme temperatures or the effects of normal wear and tear.

Natural woods may vary in color and characteristics and exhibit subtle changes as they age. Sunlight, smoke, household cleaners and other environmental conditions may also affect the color match over time. These variations are considered to be the nature of the materials in relation to their environmental exposure and are not covered under this warranty.

Wolf reserves the right to alter design, specifications and material without obligation to make similar changes to products previously manufactured.

The repair(s) or replacement(s) are contingent upon the current product offerings of styles and construction options within the Wolf Signature product at the time of the warranty claim. If a warranty claim is filed after a Wolf Signature product becomes obsolete, the Manufacturer reserves the right to honor the warranty in one of the following fashions:

- 1) To replace the affected component with a new component of the same style.
- 2) To replace the affected component and any other component(s) in the residential application to achieve a uniform appearance with a similar and comparable product style of the originally purchased style.

If components are replaced, the Manufacturer cannot guarantee that the finish of these replacements will exactly match the finish and appearance of the components in the residential application. This is due to the changes that occur during the wood's natural aging process, affecting its color and grain.

THIS WARRANTY IS THE EXCLUSIVE WARRANTY OF WOLF SIGNATURE AND IS IN LIEU OF AND WOLF DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

This warranty gives you specific legal rights and you may have other rights, which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

To obtain replacement(s) under Wolf Signature's Five-Year and Lifetime Limited warranties, first contact your authorized Wolf Signature dealer or distributor, who will arrange for inspection of the cabinet. A dated sales receipt as proof of purchase is required to obtain benefits from this warranty.
